

UCA

ABOUT US

As a new student at Crown College, it won't take long to discover what makes us special — we're an outstanding group of faculty and staff who truly care about our students. Crown is a fully accredited college that offers quality academics, convenient online options, and a boldly Christian environment.

PSEO OPTIONS

Crown is excited to offer Post-Secondary Enrollment Options (PSEO) to qualified UCA High School students. PSEO is a Minnesota program that allows 11th and 12th-grade students to enroll in free college courses that earn them credits simultaneously for both their high school diploma and college degree.

Students take classes from an UCA professor or in a hybrid format in which Crown's online instructor partners with a teacher from UCA. The courses have a low student to instructor ratio. All PSEO students are supported by a dedicated PSEO academic advisor.

Scholarships

Scholarships are available to students who attended Crown as PSEO students and then enroll as full-time first-year students the following academic year. The maximum amount of this renewable scholarship is \$2,000 per year if attending on campus. Students may also qualify for additional aid. Students must demonstrate financial need as determined by the FAFSA. Students enrolling in the School of Online Studies are eligible for a 25% off tuition scholarship.

APPLICATION INFO

- Students must have a minimum 3.0 high school GPA
- No standardized tests are required for admission
- The tuition and books are FREE for Minnesota students
- Application Deadline: August 1st

To apply, students must complete and submit the following:

- An online Crown application
- A MN Dept. of Education form
- An official high school transcript

For detailed application instructions and forms, please see our website:

Crown Course Code	COURSE DESCRIPTION	CREDIT
<p>BUS 130 P4: Concepts of Personal Finance</p>	<p>A practical study of what Scripture says about financial stewardship, tithing, giving, investing, and the use of debt. Students will develop personal budgets and financial goals. Discussion will also include the use of various types of credit and insurance.</p>	<p>3</p>
<p>DEM 1231 P2: Basic First Aid</p>	<p>This course provides the knowledge and skill needed for injury and illness recognition, first aid care and accident prevention. Students who successfully complete this course will receive American Heart Association Certification in Community First Aid, AED and CPR.</p>	<p>1</p>
<p>SCI 219 P2: Medical Terminology</p>	<p>This course introduces students to the language of medicine. Word building, analyzing, and defining exercises are used to learn medical terms built from word parts. Memorizing and recalling are used for medical terms not built from word parts. Spelling, pronunciation, and practical application is emphasized. Students will learn to use and understand medical terminology and the word parts used to build words in simulated real-world contexts.</p>	<p>3</p>
<p>ECO 2332 P2: Intro to Microeconomics</p>	<p>This course examines fundamental microeconomic principles concerning consumer and organizational behavior. Microeconomic analysis will be applied through a biblical and ethical lens to consumer markets, labor markets, financial markets and public policy. This course is equivalent to: ECO 332 and ECO 324</p>	<p>3</p>
<p>LAN 256 P4: Spanish II</p>	<p>This builds on the work of Spanish I as an introduction to the sounds, vocabulary, and structures of the Spanish language through listening, speaking, reading and writing as well as awareness of the cultural context of the language. Communicative skills are reinforced through practice in integrated laboratory activities. Prerequisite: LAN 255 or consent of the instructor</p>	<p>4</p>
<p>MAT 131 P4: College Algebra</p>	<p>This course provides a short review of Algebra II, followed by a concise study of algebraic, polynomial, exponential and logarithmic functions and their graphs. Linear, quadratic and systems of equations are included, along with their applications. This course provides a foundation for students wishing to take calculus. Prerequisite: High School Algebra II</p>	<p>3</p>
<p>MAT 2431 P4: Calculus I (Part A)</p>	<p>This course is the first of a two-part series that covers the first semester of college calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Following a review of limits, functions, and trigonometry, derivatives are studied in depth exploring linear, power, and implicit functions. Applications of the derivative are explored including related rates, rates of change, curve sketching, and optimization. Not to be taken in addition to MAT 243. Prerequisite: MAT 131 or high school Pre-Calculus</p>	<p>2</p>

<p>BUS 130 P4: Concepts of Personal Finance</p>	<p>A practical study of what Scripture says about financial stewardship, tithing, giving, investing, and the use of debt. Students will develop personal budgets and financial goals. Discussion will also include the use of various types of credit and insurance.</p>	<p>3</p>
<p>COM 1515 P8: Public Speaking</p>	<p>This course provides the student with an introduction to the theory of the communication process. Topics include analyzing a target audience, organizing material, preparing an effective method of delivery, and developing informative and persuasive speeches. Each student will deliver speeches that are videotaped and evaluated. This course is equivalent to: COM 133</p>	<p>3</p>
<p>DEM 2156 P4: Emergency Medical Responder</p>	<p>This course provides the essential knowledge needed to provide emergency care in circumstances of acute injury or illness. Students who successfully complete this course will receive Emergency Medical Responder certification.</p>	<p>3</p>
<p>LAN 335 P4: Spanish III</p>	<p>The purpose of the second-year courses is to increase the student's ability to speak, understand, read, and write the Spanish language. The courses will also increase the student's awareness of Hispanic culture and will review aspects of Spanish grammar. Prerequisite: LAN 256 or consent of the instructor</p>	<p>3</p>
<p>MAT 1410 P4: Precalculus</p>	<p>This course covers concepts that are foundational for calculus. Topics include trigonometry, analytic geometry, probability, vectors, sequences and series. Students will also be introduced to the topic of limits. Prerequisite: MAT 131</p>	<p>3</p>
<p>MAT 2432 P4: Calculus I (Part B)</p>	<p>This course is the second of a two-part series that covers the first semester of college Calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Integration is introduced including work with the definite integral and integral applications. Inverse functions and their derivatives, including exponential, logarithmic and inverse trigonometric functions are also covered. Not to be taken in addition to MAT 243. Prerequisite: MAT 243</p>	<p>2</p>
<p>POL 2510 P2: American Government</p>	<p>This course examines the politics and processes of American government at the national, state and local level: the constitutional foundations of American government; national institutions, chiefly the presidency, Congress and Supreme Court; and the political forces that shape American government, including elections, parties and interest groups. This course is equivalent to: POL 232</p>	<p>3</p>
