

Unity

ABOUT US

As a new student at Crown College, it won't take long to discover what makes us special — we're an outstanding group of faculty and staff who truly care about our students. Crown is a fully accredited college that offers quality academics, convenient online options, and a boldly Christian environment.

PSEO OPTIONS

Crown is excited to offer Post-Secondary Enrollment Options (PSEO) to qualified Unity High School students. PSEO is a Minnesota program that allows 11th and 12th-grade students to enroll in free college courses that earn them credits simultaneously for both their high school diploma and college degree.

Students take classes in a hybrid format in which Crown's online instructor partners with a teacher from Unity. The courses have a low student to instructor ratio. All PSEO students are supported by a dedicated PSEO academic advisor.

Scholarships

Scholarships are available to students who attended Crown as PSEO students and then enroll as full-time first-year students the following academic year. The maximum amount of this renewable scholarship is \$2,000 per year if attending on campus. Students may also qualify for additional aid. Students must demonstrate financial need as determined by the FAFSA. Students enrolling in the School of Online Studies are eligible for a 25% off tuition scholarship.

APPLICATION INFO

- Students must have a minimum 3.0 high school GPA
- No standardized tests are required for admission
- The tuition and books are FREE for Minnesota students
- Application Deadline: August 1st

To apply, students must complete and submit the following:

- An online Crown application
- A MN Dept. of Education form
- An official high school transcript

For detailed application instructions and forms, please see our website:

FALL COURSES 2024

AUG 28 - DEC 20

| Crown Course Code | COURSE DESCRIPTION | CREDIT |
|---|--|----------|
| MAT 2230 P2 Statistical Concepts | The basic concepts and techniques of statistical inference are introduced. Topics include frequency distribution, central tendency, probability, standardized distributions, and hypothesis testing. This course may be fulfilled by: MAT 226 | 3 |
| MAT 2431 P4 Calculus 1 (Part A) | This course is the first of a two-part series that covers the first semester of college calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Following a review of limits, functions, and trigonometry, derivatives are studied in depth exploring linear, power, and implicit functions. Applications of the derivative are explored including related rates, rates of change, curve sketching, and optimization. Not to be taken in addition to MAT 243 . Prerequisite: MAT 131 or high school Pre-Calculus | 2 |

SPRING COURSES 2025

JAN 15 - MAY 16

| Crown Course Code | COURSE DESCRIPTION | CREDIT |
|---|---|----------|
| MAT 2231 P2 Statistical Concepts: Hypothesis Testing | This course is a continuation of MAT 2230 - Statistical Concepts . Additional concepts include proportions, 1 & 2 sample t-tests; matched pair 2 sample t-tests, chi-square tests and ANOVA analysis. May not be taken in addition to MAT 226 - Applied Statistics . Prerequisite: MAT 2230 | 1 |
| MAT 2432 P2 Calculus 1 (Part B) | This course is the second of a two-part series that covers the first semester of college Calculus as defined by Crown College (MAT 243 - Calculus I). Students must take both parts to get credit for Calculus I. Integration is introduced including work with the definite integral and integral applications. Inverse functions and their derivatives, including exponential, logarithmic and inverse trigonometric functions are also covered. Not to be taken in addition to MAT 243 . Prerequisite: MAT 2431 | 2 |
