# PRE-PROFESSIONAL PROGRAMS

## START YOUR PROFESSIONAL JOURNEY AT CROWN COLLEGE

Crown College is dedicated to producing graduates that are academically and spiritually prepared to enter professional graduate programs following their time on our campus. Pre-professional degree offerings (**Nursing, Exercise Science, Medical Biology/Health Science**) ensure that students learn the necessary skills in a boldly Christian environment. Our faculty are prepared to challenge and support students in the first step of their journey towards a professional graduate degree. Faculty Advisors connect with the student early on in their journey to ensure alignment of the major and minor elective courses to streamline admittance to graduate schools.

**Get started at Crown today!**

## THE FOUNDATION FOR A VARIETY OF GRADUATE DEGREES

Take advantage of our faith-integrated college to get your required undergraduate degree before moving on to graduate programs at other institutions. These are some examples of graduate degrees we can prepare you to pursue:
